FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Any changes or modification not expressly approved by the party responsible for compliance could void the use's authority to operate the equipment

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

IC (ISED) COMPLIANCE STATEMENT

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

(1) This device may not cause interference.
(2) This device must accept any interference, including interference that may cause undesired operation of the device.

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

(1) L'appareil ne doit pas produire de brouillage;
(2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Cet équipement est conforme aux limites d'exposition au rayonnement du CI établies pour un environnement non contrôlé.

This Class B digital apparatus complies with Canadian ICES-003.

OPERATION INSTRUCTIONS

1. POWER ON/OFF

Press and hold the Power button to turn the device on or off. The device enters standby mode when powered on..

Manual Mode:

Press and hold the Start button to begin blowing air. Release the Start button to stop.

Automatic Mode:

Press the Start button once to begin blowing air. Press again to stop. Note: Automatic Mode operates in Low and Medium speeds only. High speed is only available in Manual Mode.

2. SPEED SETTINGS

After powering on, press the Power button to cycle through speeds (device defaults to High when powered on):

- **Low:** 25,000 rpm
- **Medium:** 60,000 rpm
- **High:** 110,000 rpm

3. CHARGING

Do not charge the device while it is in use. Charge using the included USB-C charging cord. Full charge takes approximately 3.5 hours.

4. BATTERY INDICATOR

LIGHTS	BATTERY LEVEL
3 lights on	100%
2 lights on	50%
1 light on	25%

During Charging: Indicator lights flash in sequence based on battery level. Fully charged: All 3 indicator lights remain solid.

Low Battery: All 3 indicator lights flash simultaneously.

Full Charge: All 3 indicator lights are on.

5. AUTO-OFF FUNCTION

The device will automatically shut down 3 minutes of stand by.

SAFETY AND TROUBLESHOOTING

To reduce the risk of injury, electric shock, fire, or property damage, follow all safety precautions below.

CHARGING CABLE

- Do not use a damaged charging cable. A damaged cable can cause burns, electric shock, or fire.
- Do not plug or unplug the charging cable with wet hands.
- Do not bend, pull, twist, pinch, or place heavy objects on the charging cable.
- Replace a damaged charging cable before use.

USAGE AND STORAGE

- Do not block the air inlet or outlet or insert foreign objects into either port during operation.
- Do not submerge in water or use in wet or damp environments.
- Do not use with wet hands.
- Do not use near gasoline, paint thinner, aerosol sprays, or other flammable materials.
- Do not leave the device powered on and unattended.
- Do not store in high-humidity areas.
- Keep out of reach of children and infants.
- Do not use near bathtubs, sinks, or other water sources.
- Keep the air inlet away from hair during operation to avoid entanglement.

If Something Seems Wrong

If the device stops producing airflow, shuts off repeatedly, shows signs of internal heat, or produces smoke — stop using it immediately and do not attempt to restart it. Contact Hornady Security® customer support at hornady.com/contact.

MAINTENANCE

1. Please store this product out of reach of children and pets.
2. Please store in a dry environment. Do not place this product in high temperatures or in the car with exposure to sunlight.
3. Do not overcharge or discharge the battery, otherwise it will cause damage to the battery cell.
4. Do not use sharp objects to clean the suction and blowing ports to avoid damaging the product.
5. Do not use alcohol, nail polish remover, or detergent to clean this product,as this may cause malfunction, breakage, or fading.

WARRANTY

Hornady Security® electronic components are covered by a one-year warranty from the date of purchase. See Hornady.com for details.

SPECIFICATIONS

Weight: 7.2 oz.

Dimensions: 3.4" W x 5.2" H

Lithium-Ion Battery Capacity: 2500mAh*2 – With 240 minutes runtime.

Charging: 5V / 1.5A (7.5W), with a full charge achieved in approximately 3.5 - 4 hours.

Extended Runtime (Battery Life):

- **Low**: Up to 4 hours
- **Medium**: Up to 36 minutes
- **High:** Up to 19 minutes

Working Voltage: 7.4V
