

6.5 JDJ

Handgun:	T/C Contender	Bullet Diameter:	0.264"
Barrel:	14", 1 in 8" Twist	Maximum COL:	N/A"
Case:	Winchester	Max. Case Length:	1.900"
Primer:	Federal 210	Case Trim Length:	1.890"

J.D. Jones, President of SSK Industries and a prolific wildcat developer, has created proprietary cartridges in 22, 6mm, 25, 6.5mm, 7mm, 30, 8mm, 338, 358, 375, 41, and 458 calibers. Some of the motivation for this extensive development has apparently been the desire to produce cartridges which could deliver added range and power to the Thompson/Center Contender pistol series. Not only has the JDJ cartridge series been effective in hunting, many cartridges in the series have produced favorable performance on silhouette targets as well.

6.5mm has been a caliber of special interest to Jones. He has developed not only the 6.5mm JDJ, but the 6.5mm JDJ x 30 and the 6.5mm JDJ #2. In addition, he has created the 6.5mm Whisper, a cartridge with quite interesting subsonic performance.

The 6.5mm JDJ is a cartridge with excellent long range (up to 300 yards) smaller big game handgun hunting potential. Based on the 225 Winchester case, it was developed for chambering in the T/C Contender and delivers outstanding velocities with the range of Hornady Bullets in 6.5mm caliber. In terms of hunting potency, the 6.5mm JDJ is a good choice for the handgun hunter seeking both accuracy and excellent game-getting potential in one and the same cartridge.
